

Collar PVC

for installation of Felt Tall pass-through

VILPE® on PVC roofing

Collar PVC is a cone shaped collar which enables watertight and easy installation of the Felt Tall pass-through on PVC roofing. This allows the installation of our P-series roof fans and exhaust ventilation pipes (not XL) on PVC roofing.

Dimensions

Material

Collar PVC is made of PVC rubber.

Standard colours

- Grey – reference colour RAL 7015 (dE 2,11)
- Light grey – reference colour RAL 7040 (dE 0,54)

Installation
